

sustainableumd

Follow these simple steps to live sustainably and respect the planet at University of Maryland. Participating in our green culture helps advance campus sustainability goals of minimizing energy, waste and our carbon footprint. Every Terp leaves footprints and every footprint counts!

CONSERVE RESOURCES

72%

of undergraduate students wash their clothes in cold water to save energy

MORE ENERGY TIPS:

1. Turn off the lights when not in use
2. Take short showers
3. Shut down your computer and other electronics when you leave your room

CONSUME MINDFULLY

83%

of undergraduate students choose eco-friendly products over alternatives

HOW TO BUY ECO-FRIENDLY PRODUCTS:

1. Check for the recycled and recyclable levels
2. Buy products made locally
3. Go for organic and/or fair trade

REDUCE REUSE, RECYCLE

90%

of undergraduate students donate or sell unwanted items instead of throwing them away

MORE TIPS ON REDUCING:

1. Bring your own water bottle
2. Pay bills online
3. Read electronic subscriptions to newspapers and magazines
4. Buy items in bulk
5. Pack your lunch in reusable containers
